- What We Are Building and Why -

What: A service project that curates the Facebook data of the deceased

Who: Those whose loved one or ones have passed

Why: Facebook lacks sensitive management of a deceased person's account

Vagrant Issues

Greatest - Achievement -

Using MVC successfully

```
class Story extends Illuminate\Database\Eloquent\Model {  
  
    public static $factory = array(  
        'story_id' => 'integer',  
        'mem_id' => 'integer',  
        'user_id' => 'integer',  
        'user_name' => 'string',  
        'title' => 'string',  
        'story' => 'longText',  
        'saved' => 'boolean'  
    );  
}
```

Stories

ID	Title	Story	Actions
1	Memorial of Sugar Park	Kate and I used to be in scouts together at Sugar Park. We'd meet every Sunday with our groups. Kate was a strong girl for her age. We had to make our own flag and wear green scarves to our meetings.	Edit Story Delete Story
2	Memorial of Mountain View High School	Kate was older than me but used to be friends at my high school. I'd be hanging out with the older kids. He always had to be the one to get me out of the house.	Edit Story Delete Story
3	Memory of Camp	Once Kate and I went to camp together for weeks. I remember her being a really funny girl. He tried to get everyone to cross this river we found in the woods. I just remembered a lot of people getting wet that day.	Edit Story Delete Story
